**INDUSTRIPLAST har produsert båtlister for lystbåtindustrien siden 1963. Produksjonen omfatter mer enn 200 modeller og dimensjoner. Fenderlistene produseres normalt i ferdige tilpassede lengder. Listene leveres også sveiset i hele ringer, noe som kan gi kostnadsbesparende montering.**

Alle fenderlistene kan leveres i ønsket farge. Spesialbestillinger kan produseres på kort varsel og i mindre kvanta. Enkle lister leveres for utskifting på eldre båter.

Vi gir gjerne gratis råd og vink om valg av fenderlist og fremgangsmåte for montering. Sort utvalg av nyere lister tilpasset moderne lystbåter.

Fenderlistene benyttes også til en rekke andre formål, som fending av flytebrygger, kaier, vogner, stativer, vegger etc. Gunstige priser og rask levering.
